FEATURES AND SPECIFICATIONS GUIDE

CONSTRUCTION

Color Temperature

White (6500K) / Natural White(4000K) / Warm White (3000K) Color Temperature – Choose the perfect lighting tone for every space and mood.

IP 20

Protection against solid objects >12.5 mm (e.g., fingers); no water protection.

IP 65

Fully dustproof and resistant to water jets from all directions

Indoor Lighting

Indoor lighting is designed for enclosed spaces, offering efficient illumination to enhance functionality, aesthetics, and comfort.

Outdoor Lighting

Outdoor lighting is built to with stand environmental conditions while providing powerful illumination for safety, security, and aesthetics.

Beam Angles

- Narrow (10°–25°): Focused light for accents and spotlights.
- Medium (30°–40°): Balanced light for tasks and displays.
- Wide (60°–120°): Broad light for large areas and general lighting.

Ceiling Installation

Designed for recessed ceiling installation with spring-clip mounting, efficient heat dissipation, and uniform illumination.

Wall Installation

Built with adjustable beam direction, durable housing, and easy surface or wall-mount installation for focused lighting.

CRI (Color Rendering Index)

CRI (Color Rendering Index) measures how accurately a light source displays colors compared to natural sunlight, on a scale from 0 to 100.

Motion Sensor

- Detects movement automatically for hands-free lighting control, improving convenience and energy efficiency.
- Built with fast response sensing, wide detection range, and reliable performance for indoor applications.

Guarantee

- Protected by a 2-year guarantee, reflecting trusted quality and dependable performance.
- Built for long-lasting operation with support against manufacturing defects under normal usage conditions.

Efficiency

High-efficiency performance delivers maximum illumination with low power consumption and long-lasting reliability.

SMART LIGHTING

The Future of Illumination

(Intelligent • Efficient • Connected)

Transform spaces with lighting that thinks, adapts, and connects.The Liteart Smart Lighting Series is designed for modern living and smart businesses—offering unmatched convenience, energy efficiency, and futuristic control at your fingertips.

- **App & Voice Control – Manage lights with your smartphone or voice assistants.**
- **Energy Efficient – Smart power-saving technology without compromising brightness.**
- **Customizable Ambience – Adjust brightness, color, and mood instantly.**
- **Automation Ready – Set schedules, scenes, and smart triggers.**
- **Seamless Connectivity – Works with Bluetooth and smart hubs.**
- **Remote Control – Effortlessly manage your lighting from anywhere with an intuitive wireless remote.**

AURIGA SERIES BOLLARD LIGHT

Outdoor lighting is an essential aspect of designing beautiful and functional exterior spaces. Among various lighting solutions, bollard lights stand out for their unique combination of aesthetics and practicality. Whether for residential landscapes, commercial spaces, or public areas, bollard lights are a versatile and stylish choice.

What Are Bollard Lights?
Bollard lights are short, vertical posts with a built-in light source, typically installed at ground level. These fixtures are designed to illuminate walkways, gardens, driveways, or outdoor pathways, enhancing safety and ambiance.
